2009 hyundai sonata maintenance guide

You want your Hyundai Sonata to last as long as possible. If you put in the effort to keep up with proper maintenance, your Sonata could be on the road well past the 200,000 mile mark. So, you want to care for your car, but you're not sure when to get certain services. It can be overwhelming, but fortunately, there's a resource that takes the guesswork out of routine Sonata maintenance. Rely on the recommended maintenance schedule that's been created just for your 2009 Hyundai Sonata! This recommended maintenance schedule is written by the auto manufacturer, Hyundai themselves. Depending on driving conditions and climate in your area (as well as other contributing factors, like your personal travel habits), your car's scheduled maintenance needs may vary; however, recommended maintenance usually includes services like oil changes, tire rotations, brake pad replacement, filter changes, and fluid checks and exchanges. Staying on track with routine service appointments can help your Sonata perform better, keep you safer on the road, and help you avoid expensive repairs caused by 2009 Hyundai Sonata problems later. Head to your nearest Firestone Complete Auto Care in your 2009 Hyundai Sonata for factory-recommended routine maintenance and our technicians will jump right in with a Courtesy Check. This Courtesy Check can establish a baseline of what may need to be addressed during your service appointment. Each Courtesy Check includes a free battery test and an inspection of your Sonata's windshield wiper blades, head and tail lights, filters, fluid levels, tires, and alignment. Think you could be due for a new battery in your 2009 Hyundai Sonata? In general, car batteries only last three to five years. There's a chance you'll need a replacement sooner, but it depends on the climate in your area as well as your driving habits. Taking short trips or exposing your car to extreme temperatures (like in the dead of winter or heat of summer) could reduce the life expectancy of your Hyundai Sonata battery. It can be tempting to try and get as much life out of your battery as possible, but it's smart to check it regularly and replace it before it gets too weak. Otherwise, you may find yourself (and your trusty Sonata) stuck in the middle of nowhere. Your Hyundai Sonata could quickly go from being a trusty ride to a source of stress in a matter of minutes. Staying on schedule for battery replacements and motor oil changes can help your 2009 Hyundai Sonata's engine run smoother. Reference the chart toward the top of the page if you're not sure about the optimal oil change intervals for your 2009 Sonata. Keep in mind that your oil change interval could be different given your driving style and climate. Talk to a Firestone Complete Auto Care technician to know when to change your oil. We can also answer any questions you have about what type of oil to use for your 2009 Hyundai Sonata. Periodic service to the steering system in your Hyundai Sonata can not only ensure a smooth ride; it can also help you maintain control of your car in compromised road conditions. Don't let a misalignment or pulling steering wheel put you in danger. You can count on Firestone Complete Auto Care's trained technicians to inspect this system and, if needed, perform Hyundai Sonata suspension and steering services. These might include wheel alignment, power steering fluid flushes and replenishments, ball joint lubrication, wheel bearing replacement, and strut replacement. To keep your car running at its best, it's essential to have regular maintenance services on your Hyundai Sonata's steering and suspension system. Without routine Hyundai Sonata maintenance, you might find yourself with a hot mess on your hands - quite literally. A damaged A/C system is never fun, and an overheated engine can cause significant issues (like a total car breakdown!). Our technicians have you covered there, too, with the tools and expertise to care for your entire Hyundai Sonata cooling, heating, and climate control system. Need a new Hyundai Sonata radiator? We got it. Got a funny smell coming from your A/C? We're on it. Firestone Complete Auto Care is the place to go for 2009 Hyundai Sonata maintenance. So visit us regularly, or visit us urgently. Many locations are open on weekends and in the evening. To help make your life easier we created Hyundai Click to Buy which makes shopping and buying a new Hyundai, quicker, simpler and safer. And with the Hyundai Drive app's Remote Test Drive feature you can schedule a test drive that brings the vehicle to you. Secure and transparent Quick and convenient Shop in comfort from home Estimate your payment Apply for credit Do your paperwork online or remotely Test drives that come to you Get your Hyundai delivered to you Learn more The following maintenance services must be performed to ensure good emission control and performance. Keep receipts for all vehicle emission services to protect your warranty. Where both mileage and time are shown, the frequency of service is determined by whichever occurs first. 7,500 miles (12,000 km) or 6 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (7,500 miles (12,000 km) or 12 months) Add fuel additive *4 (7,500 miles (12,000 km) or 12 months) 15,000 miles (24,000 km) or 12 months Inspect air cleaner filter Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Replace climate control air filter (for evaporator and blower unit) Replace engine oil and filter (2.4 GDI) *3 (15,000 miles (24,000 km) or 24 months) Add fuel additive *4 (15,000 miles (24,000 km) or 24 months) 22,500 miles (36,000 km) or 18 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (22,500 miles (36,000 km) or 36 months) Add fuel additive *4 (22,500 miles (36,000 km) or 36 months) *3 Engine oil (2.0 TGD) At first, replace at 3,000 miles (5,000 km) or 6 months, after that, every 5,000 miles (8,000 km) or 6 months. *4 If TOP TIER Detergent Gasoline is not available, one bottle of additive is recommended. Additives are available from your authorized HYUNDAI dealer along with information on how to use them. Do not mix other additives. * Inspect and if necessary, adjust, correct, clean or replace. 30,000 miles (48,000 km) or 24 months Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Replace climate control air filter (for evaporator and blower unit) Replace engine oil and filter (2.4 GDI) *3 (30,000 miles (48,000 km) or 48 months) Add fuel additive *4 (30,000 miles (48,000 km) or 48 months) 37,500 miles (60,000 km) or 30 months Inspect air cleaner filter Inspect vacuum hose Inspect manual transaxle fluid (if equipped) Replace engine oil and filter (2.4 GDI) *3 (37,500 miles (60,000 km) or 60 months) Add fuel additive *4 (37,500 miles (60,000 km) or 60 months) *1 Fuel filter & Fuel tank air filter are considered to be maintenance free but periodic inspection is recommended for this maintenance schedule depends on fuel quality. If there are some important safety matters like fuel flow restriction, surging, loss of power, hard starting problem etc, replace the fuel filter immediately regardless of maintenance schedule and consult an authorized HYUNDAI dealer for details. *3 Engine oil (2.0 TGD) At first, replace at 3,000 miles (5,000 km) or 6 months, after that, every 5,000 miles (8,000 km) or 6 months. *4 If TOP TIER Detergent Gasoline is not available, one bottle of additive is recommended. Additives are available from your authorized HYUNDAI dealer along with information on how to use them. Do not mix other additives. * Inspect and if necessary, adjust, correct, clean or replace. 45,000 miles (72,000 km) or 36 months Inspect air cleaner filter Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Replace climate control air filter (for evaporator and blower unit) Replace engine oil and filter (2.4 GDI) *3 (45,000 miles (72,000 km) or 72 months) Replace spark plugs (iridium coated), 2.0TGD Add fuel additive *4 (45,000 miles (72,000 km) or 72 months) 52,500 miles (84,000 km) or 42 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (52,500 miles (84,000 km) or 84 months) Add fuel additive *4 (52,500 miles (84,000 km) or 84 months) 60,000 miles (96,000 km) or 48 months Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Inspect brake/clutch (if equipped) fluid Inspect fuel filter *1 Inspect fuel lines, fuel hoses and connections Inspect fuel tank air filter (if equipped) *1 Inspect parking brake Inspect vapor hose and fuel filler cap Inspect valve clearance *2 Inspect drive belts (First, 60,000 miles (96,000 km) or 72 months after every 15,000 miles (24,000 km) or 24 months) Replace climate control air filter (for evaporator and blower unit) Replace air cleaner filter Replace engine oil and filter (2.4 GDI) *3 (60,000 miles (96,000 km) or 96 months) Replace coolant (First, 60,000 miles (96,000 km) or 60 months after every 30,000 miles (48,000 km) or 24 months) Add fuel additive *4 (60,000 miles (96,000 km) or 96 months) 67,500 miles (108,000 km) or 54 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (67,500 miles (108,000 km) or 108 months) Add fuel additive *4 (67,500 miles (108,000 km) or 108 months) 75,000 miles (120,000 km) or 60 months Inspect air cleaner filter Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Replace climate control air filter (for evaporator and blower unit) Replace engine oil and filter (2.4 GDI) *3 (75,000 miles (120,000 km) or 120 months) Add fuel additive *4 (75,000 miles (120,000 km) or 120 months) 82,500 miles (132,000 km) or 66 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (82,500 miles (132,000 km) or 132 months) Add fuel additive *4 (82,500 miles (132,000 km) or 132 months) 90,000 miles (144,000 km) or 72 months Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint, upper arm ball joint Inspect suspension mounting bolts Inspect brake/clutch (if equipped) fluid Inspect fuel filter *1 Inspect fuel lines, fuel hoses and connections Inspect fuel tank air filter (if equipped) *1 Inspect parking brake Inspect vapor hose and fuel filler cap Inspect valve clearance *2 Inspect drive belts (First, 60,000 miles (96,000 km) or 72 months after every 15,000 miles (24,000 km) or 24 months) Replace climate control air filter (for evaporator and blower unit) Replace air cleaner filter Replace engine oil and filter (2.4 GDI) *3 (90,000 miles (144,000 km) or 144 months) Add fuel additive *4 (90,000 miles (144,000 km) or 144 months) 97,500 miles (156,000 km) or 78 months Inspect air cleaner filter Inspect vacuum hose Replace engine oil and filter (2.4 GDI) *3 (97,500 miles (156,000 km) or 156 months) Add fuel additive *4 (97,500 miles (156,000 km) or 156 months) 105,000 miles (168,000 km) or 84 months Inspect air cleaner filter Inspect vacuum hose Inspect air conditioning refrigerant Inspect brake hoses and lines Inspect drive shafts and boots Inspect exhaust pipe and muffler Inspect front brake disc/pads, calipers Inspect rear brake disc/pads Inspect steering gear box, linkage & boots/lower arm ball joint,
